Financial Highlights:

For the quarter ended September 30, 2023, FESCO recorded Turnover/Revenues of J\$7,203.13 million which reflects a 3.3% or J\$231.499 million year over year increase. Several factors affect revenue/turnover with the supply price of fuel being a major component.

On average, this quarter's refinery prices have decreased between J\$25.27- J\$25.60 per litre for gasoline and J\$45.30 – J\$48.01 for diesel relative to the similar period last year Q2 ending September 30, 2022. Accordingly, FESCO's growth in Turnover for the quarter (Q2) ended September 2023, relative to Q2 September 2022, reflects significant growth in litres of fuel sold. Please refer tables below for details:

FESCO recorded gross profit of J\$379.88 million for the quarter which reflects growth of 99.8% or J\$189.71 million year over year. The Company's YTD Q2 2023/2024 gross profit of J\$718.51 is 80.9% of the gross profits earned for the entire year ended March 2023 and J\$312.26 million more than its YTD Q2 2022/2023 gross profits of J\$406.25 million. The improvement in gross profit reflects both increasing throughput (measured in litres of fuel sold) and diversification of product offerings (fuel types including LPG) and services (increased retail presence).

Operating Expenses of J\$204.07 million, for the period, is up J\$138.37 million versus the similar period last year or 210.6%. This expansion of expenses directly reflects the expanded:

- 1. Operations (operating locations);
- 2. Asset base;
- 3. Operational scope (which now includes increased retailing and manufacturing);
- 4. Early stage new business costs.

During this period, and for the financial year, the Company has committed to and has expanded its Marketing and Advertising expenditure to create brand awareness for its LPG product FESGAS among other initiatives. The Company's YTD advertising expenditure of J\$28.86 million in just six months exceeds last year's expenditure YTD by J\$21.2 million, and exceeds the total annual expenditure of last year of J\$15.59 million.

Staff costs YTD of J\$106.71 million, which is up YTD J\$61.9.97 million from J\$44.74 million last year, reflects the expansion of our staff complement (up from 53 to 104) and is consistent and reflective of our expanded operations, operating locations and operating scope and remains efficient as it is just 28.1% of overall expenditure (2023: 28.1% vs 2022: 37.2%) and just 15.1% of gross profit (2023: 15% vs 2022: 12.9%).

Other Expenses which includes but is not limited to expenses such as security, insurance, information technology (IT) and irrecoverable GCT YTD of J\$61.21 million, which is up YTD \$J31.51 million from J\$29.70 million last year, reflects the Company's expanded operations, growing asset base as well as one-off charges. Other Expenses YTD is 21.3% of overall expenditure (2023: 21.3% vs 2022: 21.2%), and is YTD 11.4% of gross profit (2023: 11.4% vs 2022: 7.3%).

The Company's LPG operation is capital intensive as it relates to its fixed asset requirements to establish and fulfil the business' services and operation. Accordingly depreciation and interest expense will in the forming period outweigh its medium and long term "weight" relative to gross profit exemplified by depreciation YTD totalling \$J88.84 million versus \$13.98 million for the similar period last year YTD September 2022.

In summary, staff costs, bank charges, advertising, and asset based expenses including but not limited to depreciation, insurance, and security continue to be our main expense items. Our operations continue to be efficient represented by our total operating expenses being approximately 53.72% of gross profits and, more importantly for this stage of our LPG business development, the Company's total operating expenses excluding depreciation is just 40.1% of gross profits. The Company's expense profile is changing and will reflect its expanded and evolving scope of operations. The Company's expenditure and revenue targets are in line with its internal forecast and mix of established and early stage business expenses.

A look ahead

FESCO continues to monitor the moderating inflationary forces within the economy, the recent interest "freeze" by the central bank, the near full employment in many sectors of the economy, a resilient and expanding tourism product among other factors affecting consumer consumption as well as our allocation of investment capital. The Company must also navigate industry-related margin contractionary forces and consolidation within the industry. The Company remains mindful of opportunities for growth and further investment. Internal or self-funding via profit generation, profit retention, at this time, has proven to be the most efficient and cost effective source of capital to fund growth.

In December 2023 the Company expects to open its twenty first (21st) retail service station FESCO Port Maria. We welcome and invite you our valued stakeholders to patronise the station. We hope that all our stations will continue to provide you our valued stakeholders with great fuelling opportunities and services.

October through November 2023 the Company co-sponsored the Pocket Rocket Foundation Six-A-Side football competition in Waterhouse. Like the foundation we strongly believe in the importance of community development through participation, education and sports.

Finally, the Company will continue to make investments in real assets and equipment to support expanding its service station businesses, its industrial client business, and LPG business.
